

The Arts University Bournemouth (AUB) offers high quality specialist education across all creative industries, incorporating art, design, media and performance.

The challenge

AUB wanted a new financial system and, ideally, to work with a local supplier.

The solution

Enhanced phased an implementation of Access Dimensions with Fixed Assets and FocalPoint.

The results

The complete solution meets all the operational challenges AUB set out in their initial requirements document.

The benefits

- Since working with Enhanced and using Access Dimensions, AUB has benefited from a stable financial system with powerful reporting options. This includes generating reports from within the system as standard and using dynamic automated alerting tools.

“We have been very impressed with the team at Enhanced and will continue to use their advice and support. They have an in-depth knowledge of their products and deliver first class service.”

Graham Taylor,
Head of Finance,
AUB
