

With a turnover of £30m, Company of Cooks is a growing firm providing full catering and event management services to some of London's most prestigious venues, as well as bespoke catering services for weddings and other functions.

#### The challenge

Company of Cooks wanted to bring their Access Dimensions system in-house, without unnecessary disruption or downtime.

#### The solution

Within just two months of first meeting Company of Cooks, Enhanced successfully migrated all their data to dedicated servers, whilst closely working with the company to help fully maximise the system's potential.

#### The results

Since appointing Enhanced to support and host their financial software, Company of Cooks no longer need to rely on third-parties.

#### The benefits

- Savings in staffing costs
- More accurate and visible planning information
- Opportunities to up-sell
- Real-time management reporting at a click of a button
- Fully integrated management reporting systems.
