The challenge

The theatre's changing accounts system was not able to provide enough functionality, budgeting or reporting.

The solution

Enhanced recommended Access Dimensions, a reliable and efficient system that enables databases to deal with huge quantities of data and traffic.

The results

The solution dramatically reduced staff hours previously spent on dealing with purchase orders and time sheets, automating many of the administrative processes.

The benefits

- Far greater functionality for budgeting and reporting
- The ability to post forward and see what's going on before closing down month end
- Simplified costing system and ease of processing payroll
- All systems centralised and integrated with everything more visible and accessible.

"Enhanced has delivered an extremely efficient integrated system. I would thoroughly recommend their work and commitment."

Simon Payne,
Financial Director,
Theatre Royal Bath
