*where your business counts*

**Client:** Harrisons

**Sector:** Finance and Accounting

## A RELIABLE CLOUD BACKUP SOLUTION.

Harrisons is a firm of Chartered Accountants based in the business park alongside Bournemouth International Airport in Christchurch. The company offers accounts, taxation and business advisory and support services to a wide range of businesses and individuals.

Harrisons provide a cost-effective, high value solution to meet all their customers financial needs. They work hard to get to know each one of their clients to enable them to deliver timely, individual advice on how to improve their business and personal wealth.

Harrisons are one of Enhanced's longest standing customers and they continue to be one of their most loyal.

### THE CHALLENGE

Harrisons had outgrown their existing IT infrastructure and were looking to plan for the next 5 years. Enhanced recommended a complete infrastructure refresh running the latest software versions.

### THE SOLUTION

Following an initial needs analysis meeting and subsequent discussions, to evaluate what Harrisons would require from their IT going forward, it was agreed that a hybrid on-premise/cloud solution represented the most cost-effective solution. Harrisons had 3 main objectives for their new IT infrastructure:

1. Suitable to run their core application – CCH
2. A remote working solution for the partners
3. Less reliance on on-premise infrastructure.

The solution included:

- Replacement server and workstations
- Office 365 for office applications, hosted email and file sharing/storage
- Enhanced Cloud Backup – providing an automated offsite backup

### THE RESULTS

Harrisons new infrastructure is now up to date and with scalable capacity for growth. They are running the latest software versions across servers and workstations, while staff can now work remotely and more efficiently.

The project was completed with little disruption to the day-to-day running of the business. Harrisons have the ongoing support of the team at Enhanced, including a dedicated account manager.

### THE BENEFITS

- **Reliable and robust system**
- **Proactive monitoring**
- **A reliable cloud-based backup solution**
- **Better performance**
- **Trusted IT partner.**

**“We have worked with Enhanced for many years and have total trust in their capabilities and dedication. I would certainly be only too happy to recommend Enhanced as an IT partner.”**

Andy Roberts,  
Practice Manager, Harrisons
